

DRAGON EYE TECHNOLOGY, LLC

DRAGONCAM™

PORTABLE PHOTO LASER SPEED ENFORCEMENT SYSTEM

optotraffic™
innovative traffic safety solutions 

The **DragonCam™ system** is a handheld, full-featured, laser-based digital imaging enforcement system capable of capturing high-resolution images and videos of vehicles violating preset speed limits.

FEATURES:

- ✦ Includes DragonEye's IACP certified LiDAR technology with rugged tablet computer
- ✦ Compact system allows for handheld, tripod or in vehicle use
- ✦ Wireless, encrypted violation uploads to our secure server after enforcement ends

ADVANTAGES:

- ✦ Combines traditional & automated enforcement in convenient, user-friendly system
- ✦ Capture identifiable license plates from distances up to 450 ft
- ✦ Increases officer safety, maintains officer discretion

Optotrafic provides the same comprehensive suite of back office support services for all our enforcement systems. These include: citation printing and mailing, call center representatives, systems and software training, lock box payment processing, pay by web, collections, court docket preparation, financial tracking and custom reporting.
