

OSCAR™

PAD-MOUNTED LASER SPEED ENFORCEMENT SYSTEM

optotraffic™
innovative traffic safety solutions 

The **Oscar™** is a compact, portable pad-mounted LiDAR-based speed enforcement system for multi-lane enforcement of low traffic volume locations where system footprint or aesthetic concerns exist.

FEATURES:

- ✦ Internal battery & wireless connectivity enables complete portability
- ✦ Small footprint is about the size of a USPS collection box
- ✦ Captures both still & video images of violations

ADVANTAGES:

- ✦ Ideal for locations where targeted, quick reponse enforcement is a priority
- ✦ Quick set up allows easy redeployment throughout the jurisdiction
- ✦ Lane specific LiDAR, no target vehicle uncertainty associated with RADAR

Optotrafic provides the same comprehensive suite of back office support services for all our enforcement systems. These include: citation printing and mailing, call center representatives, systems and software training, lockbox payment processing, pay by web, collections, court docket preparation, financial tracking and custom reporting.
