

# SWIFT<sup>TM</sup>

TOW & IMPOUND WEB APP

**SWIFT™** is the first web app in the Towing Industry to manage and track the status of each tow event in real time and offer a menu of back office services e.g. web payment processing and mailing of required notices to maximize productivity.

## FEATURES:

- ✦ Multiple user dashboards e.g. tow company, property manager, police agency, vehicle owner, supervisor, administrator
- ✦ Accessible from any web browser on any PC or mobile device
- ✦ Real time tracking of towing status for each vehicle

## ADVANTAGES:

- ✦ Can upload photos and scanned documents for a tow event
- ✦ Customizable forms and reporting options
- ✦ Software license model is fee per tow:  
No Tow = No Fee!

Optotrafic provides the same comprehensive suite of back office support services for all our enforcement systems. These include: citation printing and mailing, call center representatives, systems and software training, lock box payment processing, pay by web, collections, court docket preparation, financial tracking and custom reporting.
