

# SILVERHAWK™

ABOVE THE ROAD TRAFFIC ENFORCEMENT SYSTEM

*optotraffic*™  
innovative traffic safety solutions 

The **SilverHawk™** features our patented "Above the Road" (ATR) LiDAR-based speed sensors and is used to enforce in locations with multi-lane, uni or bi-directional traffic with chronic speeding challenges. SilverHawk™ is available in both fixed pole and portable trailer deployment configurations.

## FEATURES:

- ✦ Enforcement equipment is encased in a powder-coated aluminum housing cabinet
- ✦ Attaches to pole/mast by simple "candy-cane" bracket enabling deployment within 24 hrs
- ✦ Reliable enforcement equipment is accurate within  $\pm 1/1$  MPH NHTSA Standard

## ADVANTAGES:

- ✦ Ideal for locations where constant monitoring & enforcement is a priority
- ✦ Can be specified uni- or bi-directional & is capable of wireless operator control
- ✦ Optional surveillance capabilities available

Optotrafic provides the same comprehensive suite of back office support services for all our enforcement systems. These include: citation printing and mailing, call center representatives, systems and software training, lockbox payment processing, pay by web, collections, court docket preparation, financial tracking and custom reporting.
